STARBUCKS—IN OUR COMMUNITIES

Contribute positively to our communities and to our environment.

Starbucks Partners in the Community

We feel that nobody understands the needs of a community like the people who live and work there. That's why we encourage Starbucks partners (employees) to get involved with local youth organizations and apply for grants on behalf of their neighborhood programs. The Starbucks Foundation gives priority consideration to proposals that include a significant level of partner participation. This hands-on, ground level approach allows us to meet the particular needs of the communities we serve and helps build strong relationships with our neighbors.

THE MUSEUM OF BELONG

TITLE: The Goldfish (*Early XXI Century*)

He was the first to win at the Town Green carnival. All the kids gathered around to see the goldfish. And at that moment he realized, through one tiny new friend, he was about to make many new friends. And although living in this place would offer him many such moments, this one would stay with him forever.
